# GOLD PRICE IN USD VS IDR

Comparison of the average of gold price growth in rupiah and in USD from 2010 – February 2026

**The price of Gold in Rupiah is more resilient than in USD.** This can be observed in the period of 2013, when the average international gold price decreased by -15.41%, gold prices in Rupiah only decreased by -6.2%. Moreover, in 2014, when the international gold price decreased significantly in 2014/2015, the gold price in Rupiah grew positively driven by the weakening of the Rupiah exchange rate against the USD. In the long term, the price of gold continues to increase and recording an all time high reaching USD 5,595/oz at the end of January 2026.

# SOLID PERFORMANCE

HRTA managed to record solid growth during the pandemic period where up to 1Q26, the Company's financial performance recorded an all time high. Annual revenue grew by 48.59% (CAGR 2020 - 2025) and net profit increased by 33.72% (CAGR 2020 - 2025).
